

The Circle Books Aspect Finder

by Circle Books

Printed on cardstock. To use, move the pointer on the inner wheel (at the 6 o'clock position, below) to the degree of the zodiac (on the outside wheel) that you want aspects for. The points of the Star of David, as well as the corners of the black (actually, blue) square behind it, will show the principle aspects. Other aspects are shown along the edge of the inner wheel. You can also use some of the hash marks on the inner wheel for any other aspects you can think of.
