Raman's New Millennium 50 Year Ephemeris (2001-2050)

edited by Gayatri Devi Vasudev

One month per page. The ephemeris is entirely free of glyphs. Mo for Moon, Su for Sun, CAP for Capricorn, AQU for Aquarius, etc. All of which is standard, though it does favor English speakers over others. **Positions given are in the Raman ayanamsa** - please note this carefully.

The order of columns is as follows: Date - DOW [date of week] - Mo - Su - Me - Ve - Ma - Ju - Sa - Ur - Np - Pl - Ra - Ke

You will note this is the standard Western order, except for the Sun/Moon swap. Note the inclusion of the three trans-Saturnian planets, as well as Rahu & Ketu given separately (mean, not true). Retrogrades are indicated with < (less than) symbol. In practice, 21VIR43 is direct. 21VIR43< is retrograde. Sidereal time, commonly given in the daily ephemeris listings in standard western ephemerides, is instead given in tables in the back. Note this will lead to complications with leap years.

Positions are for Midnight, 00 h 00 Indian Standard Time, ie Five hours thirty minutes earlier than GMT. This is an Indian ephemeris, intended for those on the subcontinent.

Not given: Stationary times, lunar phases, aspectarian, last lunar aspect, declination, SVP, Julian day. I mention these should any western astrologer stray this way.

RAMAN'S NEW MILLENNIUM FIFTY YEAR EPHEMERIS

1

JANUARY 2000 (00H. 00M. IST)
